Skills

HTML, CSS, JavaScript
React JS, Tailwind CSS,
Typescript, Responsive Web
Design, Git and GitHub.

OBJECTIVE

Eager and passionate web developer with a strong foundation in HTML, CSS, JavaScript, and React.js and Responsive web Design, actively seeking an internship opportunity. My goal is to apply and enrich my skills while making impactful contributions to a dynamic and collaborative development team. Currently in my 4th semester, I am resolutely dedicated to gaining practical, real-world experience in web development.

EDUCATION

- Schooling from Nasra School.
- Bachelor of Science in Computer Science (4th semester) from Virtual University of Pakistan.
- Enrolled in SMIT (MERN Stack) program.

PROJECTS

- **Apple Responsive Landing Page**

Created a responsive landing page mimicking the Apple website using HTML and CSS, showcasing my front-end design skills.

- **Social Media App**

Built a basic social media app with its features using React.js, enabling users to perform CRUD operations

- **Modern Web Design**

Developed a web page with dynamic content using JavaScript DOM manipulation, demonstrating my proficiency in JavaScript programming.
